

# VIKASH KUMAR

Software Developer

📍 New Delhi, India ✉ vikashpoddar437@gmail.com ☎ +91-7481901118 </> LeetCode in LinkedIn 📄 GitHub 🌐 Portfolio

## SUMMARY

Software Developer with hands-on experience building full-stack and database-driven web applications using PHP, JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB. Strong in REST API development, backend workflows, responsive interfaces, debugging, Git-based collaboration, and writing clean, maintainable code for production-ready features.

## SKILLS

**Languages:** C++, PHP, JavaScript, HTML, SQL

**Frameworks/Libraries:** React.js, Node.js, Express.js, Redux, Socket.io

**Databases:** MySQL, MongoDB

**Commerce Platforms:** WordPress/WooCommerce

**Tools:** Git, GitHub, Docker, Postman, Git Bash

**Core Competencies:** Data Structures and Algorithms, REST APIs, SDLC, Debugging, Agile/SCRUM, Problem Solving, Technical Communication

## EXPERIENCE

**Webkul Software Pvt Ltd** — *Software Engineer*

*Noida, India — Feb 2026 – Aug 2026*

- Developed and maintained PHP and MySQL based web application modules with clean backend logic, reusable code, and reliable database operations.
- Implemented feature updates, handled bug fixes, and supported application workflows from requirement understanding to delivery.
- Collaborated with engineers to analyze requirements, review implementation details, debug issues, test APIs, and deliver production-ready changes.
- Used Git, GitHub, Postman, and Agile practices for version control, API validation, task tracking, and release coordination.

**100Devs** — *Web Development Intern*

*Remote — Jan 2022 – Jun 2022*

- Built responsive full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Implemented frontend components, RESTful APIs, server-side logic, and database integrations for dynamic workflows.
- Improved application structure through reusable components, organized routes, API validation, and debugging across the stack.
- Participated in Agile task planning, daily stand-ups, code discussions, and iterative delivery.

## PROJECTS

**WooCommerce RMA**

*Webkul Software Pvt Ltd*

- Worked on WooCommerce RMA (Return Merchandise Authorization), supporting return, refund, replacement, cancellation, wallet refund, cashback, and request-management workflows.
- Contributed to RMA updates including analytics dashboards, advanced search/filtering, sorting, pagination, CSV export, bulk actions, and refreshed admin/customer UI.

**wp-store-locator**

*Webkul Software Pvt Ltd*

- Developed and maintained store locator features for physical store management, store listings, and customer location-based search.
- Implemented product-stock allocation and search by city or zip code to help customers find nearby stores with available products.

**Employee Database**

[Source Code](#) 

- Built a full-stack employee management application using React.js, Node.js, Express.js, and MongoDB.
- Designed RESTful APIs for employee record CRUD operations with structured validation, error handling, and Mongoose schemas.
- Created a responsive interface with dynamic forms, routing, search/filter functionality, and clean record-management flows.

**Real-Time Collaborative Code Editor**

[Source Code](#) 

- Developed a real-time collaborative code editor using React.js, Node.js, Socket.io, and TypeScript.
- Enabled multi-user live editing with synchronized updates, shared rooms, and real-time communication.
- Built modular frontend and backend logic to keep editor state, socket events, and user sessions easier to maintain.

## EDUCATION

**Dr. M.G.R. Educational and Research Institute University**

*Bachelor of Technology, Computer Science*

*Chennai, India — Sept 2021 – May 2025*

## ACHIEVEMENTS

- Solved **500+ problems** on LeetCode and Codewars, strengthening data structures, algorithms, and analytical problem-solving skills.
- Built **30+ full-stack applications** using React.js, Node.js, Express.js, PHP, MySQL, MongoDB, and API integrations.
- Maintained a **100-day coding streak** with consistent GitHub commits, project development, and daily programming practice.
